

## **TEEN INTRO CLASS**

The TEEN INTRO class is specifically designed for beginner skaters ages 12 – 18 who may be complete beginners or have only somewhat limited skating experience. When starting out in this class, most skaters have never taken formal skating lessons.

Once skaters taking this class level have passed the Basic 3 level, we prefer that they move to a regular Basic class which will have varying ages but will concentrate more specifically on the specific badge itself. However, if skaters prefer to remain with other teens, we will allow higher level skaters in that age range to continue in the Teen Into class. If there are enough skaters who register for Teen Intro, the class will be more specifically divided by level.

If the Teen Intro class is scheduled at a time that is not convenient, skaters in this age group are welcome to enroll in the regular Basic classes instead. Also, if only one skater enrolls in the Teen Intro class, we reserve the right to cancel that class or combine the skater into a different but still appropriate class.
